Use of recycled content

Original HP ink cartridges

HP uses recycled plastic in the manufacture of Original HP ink cartridges

Original HP ink cartridges have been engineered to use recycled plastic and still meet HP's demanding standards for quality and reliability. Recycled plastic from HP ink cartridges—returned by customers through the HP Planet Partners program—is combined with recycled plastic bottles or recycled apparel hanger materials to create new Original HP ink cartridges.¹

HP has produced more than 2 billion Original HP ink cartridges using this post-consumer recycled content. The recycled plastic used in Original HP ink cartridges has up to a 33% smaller carbon footprint and uses up to 75% less water than the virgin plastic used in Original HP ink cartridges.²

Use the links below to see a list of Original HP ink cartridges available in your region that are manufactured with recycled plastic.

North America, Latin America, Asia Pacific

Western Europe

Commonwealth of Independent States, Mongolia, Middle East, Africa

China, India

Non-Regionalized

Join HP in the shift toward more sustainable printing by recycling your used HP ink cartridges. HP Planet Partners makes it free and easy in almost 50 countries and territories in the world.³ Learn more at hp.com/recycle

¹ For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams

² For rPET cartridges produced in 2013 and beyond. Based on a 2014 life cycle assessment (LCA) performed by Four Elements Consulting and commissioned by HP. The study compared the environmental impact of using polyethylene terephthalate (PET) plastic with the environmental impact of using recycled PET to manufacture new Original ink cartridges. For details see hp.com/recycledplasticsLCA

³ Program availability varies. Original HP ink cartridge return and recycling is currently available in 49 countries, territories, and regions in Asia, Europe, and North and South America through the HP Planet Partners program. For more information, visit hp.com/recycle
